

BARN CATS AVAILABLE

Healthy, sterilized cats need barn homes! These cats are generally not friendly with people and need homes in barns, stables or other suitable outdoor environments with shelter.

All the cats have been sterilized and vaccinated and now need outdoor homes where they can live out their lives.

Caretaker responsibilities include providing daily food and water, protection from the elements and long-term veterinary care.

Be prepared for a brief period of adjustment. After a short stay in secure confinement, the cats will accept their new home and be chasing mice out of your grain!

There is no adoption fee, but donations are appreciated.
Please call or email with questions or for an application.
